

Comfort-Life 2 – The reliable tyre

Technical highlights

Excellent braking in the wet

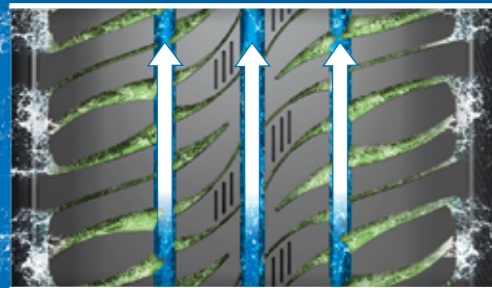

TOP!

- Improved tread pattern design with more gripping edges ensures high safety and short braking distances on wet roads.

Effect: Optimised braking performance in the wet.

High aquaplaning safety

- High aquaplaning safety and short braking distances on wet roads thanks to optimisation of groove shape.

Effect: Efficient dispersion of water

Optimised handling characteristics

- Better distribution of tread stiffness in the ribs combined with sloped lug edges ensures safe handling on both straight and extremely winding roads.

Effect: Improved transmission of lateral and longitudinal forces.

Semperit – alpine proven.

With good reason!

The origins of the Semperit brand in Austria underline its 'alpine proven' quality rating, which promises maximum safety, even under extreme Alpine conditions. Great demands are placed on tyres, particularly in the summer. You tend to drive a little faster. And particularly on long holiday trips, where road

conditions vary greatly, the tyre has to get you to your destination safely.

For over a hundred years, Semperit tyres have proved their reliability. Definitely an 'Entire performance'.

Comfort-Life 2 – The reliable tyre

For compact and medium range cars
13" to 15" – 80 to 55 Series – T/H

- Excellent braking in the wet
- High aquaplaning safety
- Optimised handling characteristics

Semperit – at home in the Alps!

NEW!

Speed-Life – The dynamic tyre

For powerful medium range and luxury
vehicles
15" to 19" – 65 to 35 Series – H/V/W/Y

- **Excellent performance in the wet**
Wide circumferential grooves and the latest generation full silica compound ensure increased aquaplaning safety and improved grip in the wet.
- **Perfect cornering**
For fast or gentle cornering – the innovative tread pattern design and high lateral stability ensure that steering response is precise and direct.

Van-Life – The load bearer

For MPVs, minibuses and light vans
14" to 16" – 80 to 60 Series – LI up to 121/120 –
Q/R/S/T/H

- **Great economy**
The reinforced casing and sturdy shoulder lugs on the Semperit Van-Life make this tyre highly resistant and durable, as well as providing extensive load reserves.
- **Driving performance similar to that of a car**
Optimum steering response, short braking distances and low rolling noise are attractive benefits for the driver.
