

**THE WINTER'S
TOUGHEST VAN PERFORMER.**

VAN-GRIP 3

The new VAN-GRIP 3 combines outstanding winter performance and perfect handling in wet conditions. This tough performer offers the long-lasting driving stability a van tyre needs.

VAN-GRIP 3

THE WINTER'S TOUGHEST VAN PERFORMER.

EXCELLENT BRAKING PERFORMANCE IN WINTRY CONDITIONS

The VAN-GRIP 3 convinces with excellent handling under cold conditions. Due to our latest winter compound technology for van tyres, this extraordinary material improves braking performance on wet, snowy and slushy roads.

REDUCED AQUAPLANING RISK AND SHORTER BRAKING DISTANCES ON WET ROADS

This tyre increases the vehicle's stability on wet roads and reduces the risk of unexpected aquaplaning at the same time. The refined pattern design displaces water and slush more effectively.

DRIVING STABILITY AND HIGH MILEAGE ON DRY ROADS

The new winter compound allows less sipes ensuring a more stable pattern which results in a higher mileage. In addition, this technology enables reliable handling and braking performance on dry roads.
