NEW

Semperit. A brand of Continental.

SEMPERIT 

Since 1906.

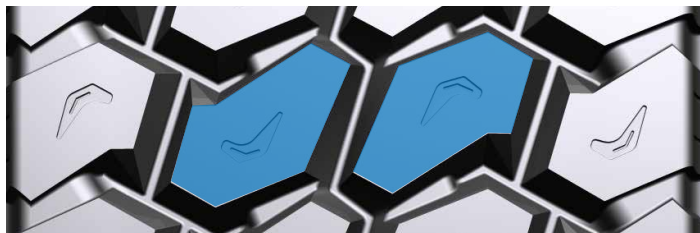

YOUR TRAILER TYRE FOR TOUGH TERRAIN

ROBUST.

Using your trailers on a construction site requires an extraordinarily robust tyre. The Semperit WORKER T2 will master the challenges of severe terrain, such as forests or gravel pits.

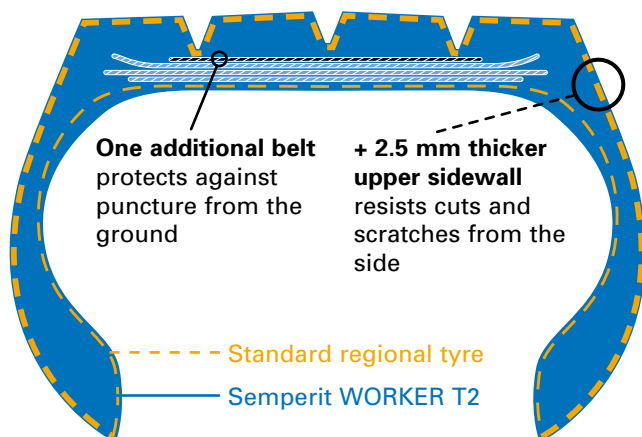

Tread design

The formula of the tread compound has been developed to **withstand cuts and chips** from thick branches and gravel on the ground.

Plus, the block pattern allows **significantly less stones to get trapped**.

Sidewall and belt

FIT FOR WINTER.

Whether you drive on a snowy regional road or on the construction site – you never want to lose grip. The Semperit WORKER T2 will not let you down. Even after extensive wear and tear.
